

ATTENTION: Pursuant 780 CMR Section 116 of the State Building Code installation of solid fuel fired appliances now requires the installer to possess a specialty Construction Supervisor License. If you are a homeowner contracting for the installation of such an appliance you must have the license holder sign the permit application in the space provided and provide a copy of his or her specialty Construction Supervisor License and complete the attached insurance form. The installation of a new chimney requires a separate building permit. Fireplace inserts must have shroud enclosures removed for inspection of vent pipe connection.
Note: Fee covers one inspection only Re-inspection Fee is \$30.00 each visit.
