

# TOWN OF PRINCETON

## Environmental Action Committee Survey – Fall 2017

At the Annual Town Meeting in May, Princeton residents voted for the Board of Selectmen to establish an Environmental Action Committee (EAC). The EAC has now been established and is working on its mission of creating an Environmental Action Plan to set goals and recommendations for the Town of Princeton with regard to environmental and energy considerations.

**In support of that work, the EAC is now asking Princeton residents to complete a survey by December 1, 2017. Answers to the survey questions will help the EAC better understand the priorities of town residents in regard to environmental and energy considerations. The survey can be found online at the following link: <http://tinyurl.com/y97pv5qx> Paper copies of the survey can also be obtained from, and returned to, Princeton Town Hall and Princeton Public Library.**

If you have any questions, or would like to reach out to the Environmental Action Committee, you can contact them at [princetoneac@gmail.com](mailto:princetoneac@gmail.com) or attend their meetings on the first Wednesday and third Monday of every month.
