

Update to page 4.2 | 14 for Library Space Needs

Number of Attendees: 10-85

Frequency: 4-5 programs/month (day or evening, Tues-Sat)

Adjacencies: It would be preferable to be able to walk from the Library to the program space.

Issues: The Library currently relies on using the Annex for 4 to 5 programs a month because there is no space in the Goodnow Memorial Building dedicated for programs. (When they have an event in either the Main Reading Room, Children's Room or basement, it monopolizes the space in such a way that other patrons are inhibited from accessing the resources they need.) In addition, the Library needs more parking spaces.
