Agricultural Regs: Lar spoke to Ed Good (Ag Comm member) and they are still working on recommendations and will get back to the board within the week.

Well Regs: Re: Draft – Revise some spelling. Dianna will forward to board.

Camp: Lar reached out to Mr. Camp regarding loaming and seeding. The conduit is exposed and will have to be addressed. Mr. Camp stated that he is aware but has been very busy. Mr. Camp emailed Lar on 8/1 and asked for more time. The court date is in September.

Yaglou: Holly Clemence wanted to address the board regarding the mouse problem she is having at her property which is next door to the Yaglou property. She stated that other neighbors were having problems with the mice as well. She has used coast soap to try and deter them. Her car had mice in it and she believes they are coming from the Yaglou property. She is also concerned about the house inside. She peered in and said that it is a hoarding situation. (JH) stated that no one lives there and the board cannot just enter someone's property without the homeowners/occupants permission. This is a zoning issue and should be addressed by the Building Dept. (HC) stated that the board is just passing the buck and that no fines or fees have been imposed on the Yaglou's. She doesn't agree with that. She feels she is getting the run around. (HC) stated that the board was negligent and then asked if the board had ever gone in the house. (JH) stated No. No one lives there and the board has no reason to inspect the house if it is unoccupied. Again, it is a zoning issue in that case. (LG) stated he would reach out to the Building Dept and make them aware of the unregistered vehicles and the condition of the building.
