

COVID UPDATE AS OF January 13, 2022

91

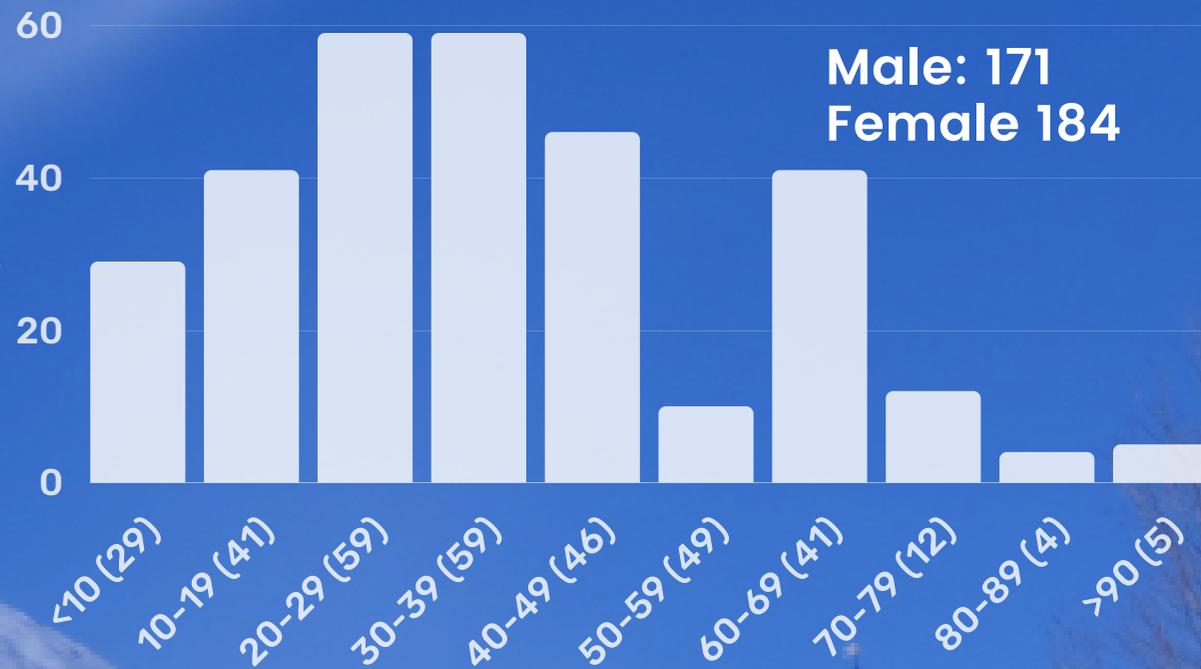

Confirmed Covid-19 since 12/28/2021

355

Total Cases to date

2

Fatalities to date

Please keep in mind that these numbers do not consider the people that self-test at home and do not report. Rutland has scheduled clinics every Monday in the month of January for both children and adults. Please visit <https://www.rrecc.us/vaccine> for more information.

At their January 4, 2022, special meeting, the Princeton Selectboard voted unanimously to require all individuals over the age of 5 years old, regardless of vaccination status, to wear a mask or face covering in indoor public spaces effective immediately. This requirement may be rescinded at any time by a vote of the Princeton Selectboard. For more information [click here](#)

The Baker-Polito administration announced a new option for residents to access their COVID-19 vaccination record from the state's immunization registry and obtain a 'SMART Health Card' QR code to indicate proof of vaccination. Massachusetts residents can visit <https://www.mass.gov/massachusetts-vaccination-records> to electronically view and save their COVID-19 vaccine record.
