Town of PRINCETON MASSACHUSETTS

COVID-19 BY THE NUMBERS
AS OF JUNE 13, 2022

The Princeton Board of Health is a member of the Montachusett Public Health Network (MPHN) . Their COVID-19 Response Team supports residents in Princeton and 12 surrounding communities with all COVID-19 related needs. If you test positive for COVID-19 at home with a rapid antigen test, please fill out this self-reporting form: https://forms.office.com/g/YqBfvLFT8X. This form will allow you to ask questions and request support from the MPHN with resources or access to treatment. You can also reach the MPHN COVID-19 Response Team by calling (978) 602-2356 Monday-Saturday 10AM-6PM.

There are a variety of COVID-19 tests to choose from. Learn more about the difference between a PCR and rapid antigen self test at http://mass.gov/GetTested #COVID19MA

COVID-19 vaccines available in the United States are effective at protecting people from getting seriously ill, getting hospitalized, and even dying. As with vaccines for other diseases, people who are up to date are optimally protected. CDC recommends that everyone 5 years and older get their primary series of COVID-19 vaccines, and receive a booster dose when eligible.

In Massachusetts, you can find COVID-19 vaccines and boosters at https://www.mass.gov/covid-19-vaccine
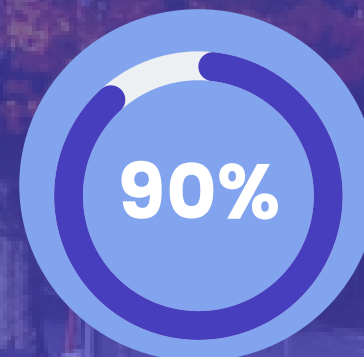

29 — Confirmed Covid-19 since 5/20/2022

492 — Total Cases to date

2 — Fatalities to date
