Weekly COVID-19 Update

as of April 21, 2021

7

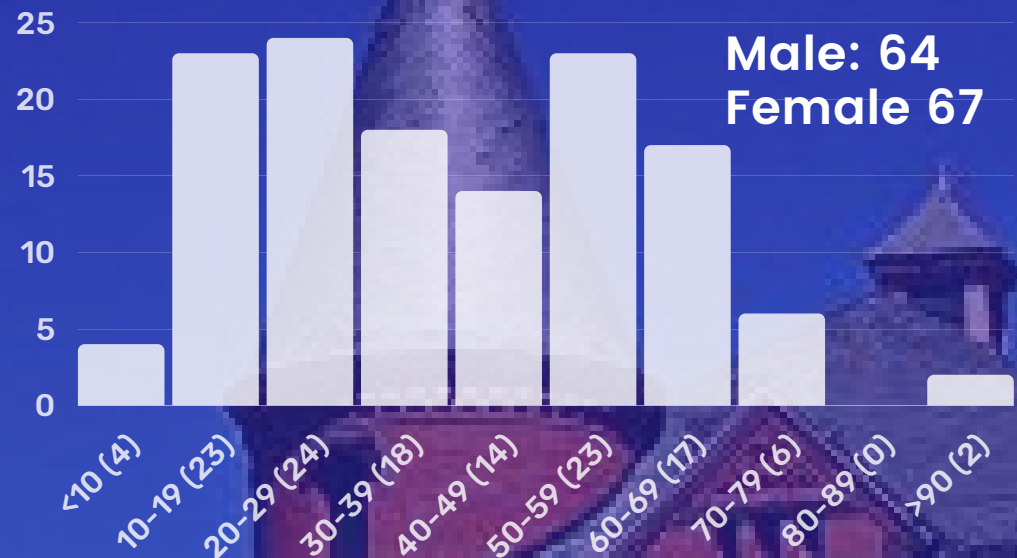

**Confirmed Covid-19
since 4/1/2021**

131

Total Cases to date

2

Fatalities to date

Beginning April 19, 2021, individuals 16+ who live, work, or study in Massachusetts are eligible to be vaccinated. Princeton residents are encouraged to call the Town of Princeton COVID Information and Vaccination Request line at 978-464-2114 to schedule vaccinations at the Rutland Library. Booking for all other locations is available through the state's VaxFinder website: <https://vaxfinder.mass.gov/> and all Massachusetts residents can preregister for a vaccine appointment at the nearest of the state's mass vaccination sites at <https://vaccinesignup.mass.gov/#/>

It is still essential to do your part to help slow the spread of COVID-19 by wearing a mask that covers your nose and mouth, practicing social distancing, avoiding crowds and poorly ventilated indoor spaces, and wash your hands with soap and water. Residents can find more information on safety protocols on the Town of Princeton website and www.cdc.gov
